

Colonel Light Gardens Primary School

TERM 1 WORKING BEE

SUNDAY APRIL 7, 2013

12 – 4PM

Each term at Colonel Light Gardens Primary School we have a working bee. This is an opportunity for students, friends and families of the school to come along and spend an hour or more working on a specific project on the school grounds, weeding, pruning, sweeping or simply picking up rubbish. Working together with our Groundsman, we can contribute to the school by helping to keep the grounds and environment of the school healthy and tidy.

The main jobs for the Term 1, 2013 Working Bee are:

- Clear drains ready for winter.
- Remove dead plants.
- Locate and map irrigation points and do any repairs if possible.
- Clean up grounds ready for Enterprise Day, e.g. verandas, bike sheds, paths, windows, and the kitchen in the hall.
- Remove and relocate some large agapanthus from local house.
- Repairs to Trevor the Scarecrow, and maintenance of the raised garden beds.

There will be members of the Grounds and Environment Committee on hand to help direct you to a job. Just BYO gardening equipment and we'll see you there!
