"Parenting Styles" workshop gives participants a chance to look at strategies from the Beaut kids book and offers hands-on, practical ideas for parents in raising happy, healthy kids.

***"The ingredients of mixing sane parents with positive kids and ending up with a great family is a challenging business. Not all kids respond to the same approaches. Effective parents need to shift their parenting gears every so often.***

***We all slip into reactive parenting from time to time. Take a deep breath, stop what you're doing and inject, devour and enjoy this book.***

***In RAISING BEAUT KIDS, Mark and Bill have whipped up a smorgasbord of ideas that will leave you and your family more positive and happier."***

Each chapter offers a typical tricky scenario that parents often face at home with their children and young teens - accompanied with the ingredients that usually fire things up! Then, they offer a set of 'Recipe rescues' as an optimistic problem solver; a practical way to respond to kids when they serve up those awkward and tricky behaviours. *BEAUT KIDS* don't just happen! Children look to parents to show steady judgement, compassionate leadership and the capacity to develop predictable boundaries and routines. Sometimes a simple tweak to our emotional response can make a big, big difference! So come on, take the challenge with us; *RAISING BEAUT KIDS* has as much to do with our relationship with them as it has to do with shaping their behaviour - the two go hand in hand. Parents deserve honesty so there's no tiptoeing around the issues in this book because our children are too precious to compromise!
