

Room 21 - BikeEd

For the first 7 weeks in Term 1, all the Year 4 students participated in the 'way 2go BikeEd' program. This teaches children more knowledge about bikes, and how to be safe on the road. Our instructors were Katie, Darren, Chris and Sheridan. They showed us lots of skills, such as the three S's, 'Scan-Signal-Scan'. They also taught us how to push off from *power position*, ride through and around T-intersections and roundabouts, do right and left turns and pass parked cars. Krystil from *Bike SA* came to observe the program and took some photos of Room 21 students. Above are some of the photos. The mayor of Mitcham, Michael Picton, came to the Year 3-7 assembly to present all of the Year 4 students with a participation certificate. Room 21 were very enthusiastic about the program because it was lots of fun, we learnt new bike games and new riding skills.
